**Location:** San Nicolas **Lot size:** 297 m2

**Price:** 50560 USD

The property is 297 m2 (3196 sq. ft.) It has a small foundation from the old cunucu home that was there. It's a nice corner lot close to the main road going to Oranjestad, or to the opposite side of San Nicolas. It would be a great opportunity to build a home on the property as you would desire.
